

Maintenance Engineer – Mobile Equipment

 **Based at Tanger Med 2**

 **Admin time**

 **Transport Provided**

CAN-IM26

Reporting to the Technical Manager, your main responsibilities will include:

 Your Role:

Technical Responsibilities:

- Ensure the reliability and availability of RTG equipment or TERBERG port tractors.
- Lead and optimize preventive and corrective maintenance plans.
- Analyze critical and repetitive failures (RCA – Root Cause Analysis) and propose sustainable corrective actions.
- Supervise technical interventions (mechanical, electrical, automation).
- Monitor maintenance performance indicators (MTBF, MTTR, availability rate).
- Update and improve FMEA and technical documentation of equipment.
- Contribute to continuous improvement and downtime reduction.
- Ensure technical follow-up of critical spare parts and external repairs.
- Act as the technical reference for the assigned equipment fleet.
- Ensure compliance with ISO 9001, 14001, and 45001 standards.

 What We're Looking For:

- ✓ Engineering degree in Mechanical Engineering, Electromechanics, Automation, or equivalent.
- ✓ Minimum 3 to 5 years of experience in maintenance of heavy industrial or port equipment.
- ✓ Experience desired (nice to have):
 - RTG (diesel-electric systems, ABB drives, motors, lifting systems),
 - or Port tractors / Reach Stackers / Forklifts (engine systems, transmission, hydraulic and electrical systems).
- ✓ Strong mechanical and electrical diagnostic skills.
- ✓ Ability to read and interpret electrical and hydraulic schematics.
- ✓ Knowledge of ABB drives and control systems is an advantage.
- ✓ Proficiency in SAP PM or equivalent CMMS is a plus.
- ✓ Good level of technical English.

Personal Qualities:

- Field leadership and ability to supervise technical teams.
- Strong analytical and problem solving skills.
- Sense of responsibility and results oriented mindset.
- Continuous improvement mindset.
- Good communication and interdepartmental coordination skills.
